

KORO WINTER SAFETY CAMPAIGN 2006 ACTION PLAN

KORO WINTER SAFETY CAMPAIGN

2006 ACTION PLAN

CAMPAIGN CONCEPT

The KORO 2006 Winter Safety Campaign will be conducted using the principles of Composite Risk Management (CRM). The concept behind Composite Risk Management (CRM) is simple - the more you know about the hazards you face the more risk you can effectively manage. There is no separation of tactical or accidental, deployed or garrison, on duty or off duty, it is all risk management 24/7 because Soldiers, civilians, and family members are vital assets whether engaging the enemy, relaxing at home, or on leave.

KORO WINTER SAFETY CAMPAIGN

2006 ACTION PLAN
